

What can you expect from us?

- We use our many years of experience to provide you with expert advice
- We provide you with an ongoing advice
- We will make sure that you get the maximum return on investment from the PLEXOR inspection system

How do we go about it?

- We copy your inspection results and we will perform a comprehensive analysis on them
- In accordance with the latest state of affairs we provide you with repair and maintenance advice per gas control line
- In the report we identify the components that you should focus on for each gas control line
- The report will be accompanied by the charts and protocols used in the analysis procedure

Example report

| Gas pressure regulating station | Gas control line | Date | Time | Remarks | OK not OK |
|---------------------------------|------------------|------------|----------|--|--------------|
| GPRS Southwest III | Working line | 12.02.2014 | 13:59:06 | Regulator: OK SSV: OK SRV: Closing pressure to high | not OK |
| GPRS Southwest III | Reserve line | 12.02.2014 | 14:11:05 | Regulator: OK SSV: OK SBV: not available | OK |
| GPRS Northeast II | Working line | 25.03.2014 | 14:07:59 | Regulator: Closing pressure much to high SSV: OK SRV: OK | not OK |
